

Title: Remote and Work-From-Home (WFH) Guidelines

1. Objective

This policy establishes standard guidelines for employees authorized to work from home. It balances operational flexibility with the necessity of maintaining high productivity, secure data handling, and strong team collaboration.

2. Eligibility and Core Hours

Remote work arrangements are determined by job role functionality and require formal approval from your department head. Approved remote employees must maintain core working hours from 9:00 AM to 5:00 PM. During these hours, you are expected to be fully accessible via Slack, Microsoft Teams, and email, and available for scheduled virtual meetings.

3. Workspace and Deliverables

Employees must ensure a quiet, professional home workspace with a reliable, high-speed internet connection. Your remote environment must allow you to complete tasks without regular distraction. The company will provide standard computing hardware, but employees are responsible for maintaining a safe and ergonomic setup. Furthermore, productivity metrics and performance standards remain identical to in-office expectations. Failure to meet these core deliverables or maintain consistent communication channels may result in the immediate revocation of your remote work privileges.

Additional Policy

Employees may work from home 3 days per week.
